Hi there,

Good questions posed by Jessica Watkins in the email below – sending to you for your reference. I have a meeting today at UA's SFMC, and will ask them about this then.

Thanks,  
Cynthia

**Subject:** RE: Stormwater maps for SFO

Thanks for the presentation! I was planning to ask for it this week.

Attached are some items that may be useful. The attached stormwater drainage map is different from what is in the permit's stormwater drainage map (Attachment B of the permit); it's probably more current. I'm also attaching the permit (Order R2-2013-0011). If you haven't already, you might want to review the Facility Description in the permit (see pages F-4 through F-7). If you see any errors or inconsistencies with the description of stormwater facilities, please let us know.

After looking at the presentation, I was at first concerned that United Airlines may have an unpermitted discharge to the North Slough based on pages 19 and 20 of the presentation. However, if you look at the stormwater drainage map, the legend indicates UAL has a separate permit for the "North Slough MOC" (whatever that means). (See Order R2-2013-0011 Attachment B and the attached SFO Maps pdf.) Does anyone know what UAL permit this is referring to? If any industrial waters are being pumped directly to the slough I would be very concerned.

**Subject:** Stormwater maps for SFO

Hello Jan,

Thank you so much for having us at your office last week to discuss the United Airlines SFO Maintenance Center. One of the action items that I wrote down from that meeting was to obtain stormwater maps from Jessica Watkins. Jessica had mentioned that she has a set of stormwater maps for the airport that we could certainly find useful. I do not have Jessica's email, and was wondering if you could forward this request to her. Also, since she joined the meeting over the phone and was not able to see the photos, I am attaching the powerpoint for her reference just in case she is interested in taking a look.

Thanks,  
Cynthia
